Education

Master of Design (M.Des)
IIT, Guwahati 2009-2011

Bachelor of Computer Tech. (B.Tech)
RTM Nagpur University, 2005-2009

Publications

Designing Mobile Security Apps:
A Paradigm Shift: A User Experience Case Study with Emerging Markets like India.
HCI International 2014 PUBLICATIONS
Rutuja M., Abhishek B.

Skills

Product Design, Research, Prototyping, Design Strategy, Leadership, Execution, AI-assisted Design (Research & Synthesis, AI Prototyping, Figma Plugins, Claude, Gemini, NotebookLM, Figma Make)

Summary

Principal Designer with 15+ years of experience across telecom, video conferencing and health tech. I lead end-to-end product experiences, from research and direction-setting to design and delivery, working closely with product, engineering and leadership.

I have been both a hands-on designer and a design manager, and lately I have been building AI into how design teams research, prototype and ship.

Experience

Verizon Telecommunications & Broadband · Principal Designer (Jan 2024 – Present)

- Work alongside the Digital Home Internet Sales team as Principal Designer, shaping sales experiences across Verizon's digital channels for a broadband business serving ~11M consumer connections.
- Work hands-on across journey mapping, usability evaluations and design, run workshops with leadership and stakeholders, and create design POVs that guide experience direction. Recent work includes bringing Mobile and Home purchases together (Spotlight Award), simplifying plan selection where 40% of shoppers were dropping off, the Frontier integration after Verizon's acquisition, and Verizon Home app onboarding.
- Contributed to AI-powered conversational sales experiences and helped define experience frameworks for the Verizon Design System (VDS)
- Drove practical adoption of AI in the design process, using Gemini, NotebookLM, Claude, Figma Make and AI-assisted prototyping for research synthesis, design exploration, documentation and rapid prototyping.

BlueJeans by Verizon Video Conferencing · Design Manager (Dec 2018 – Dec 2023)

- • Built and led a team of 6 designers for BlueJeans Mobile on iOS and Android. Apps rated 4.8 on iOS and 4.6 on Android.
- Set design direction and quality standards, planned the roadmap with product and engineering, and handled hiring, mentoring and career growth.
- Led accessibility work that helped BlueJeans achieve VPAT conformance.
- Led the browser experience end to end, including a redesign of meeting join. It achieved an internal QScore of 4.7.
- Designed BlueJeans Rooms (TV and touch controller) for enterprise customers including Facebook, LinkedIn, Red Hat and Viacom.

Practo Digital Healthcare • Lead Designer (Jun 2015 - Dec 2018)

- Led a team of 2 designers on Practo Diagnostics, Practo's first product beyond doctor search, from research and journey mapping to final design.
- Launched with 4,000+ diagnostic centres across 8 cities, as Practo grew to 10M+ searches a month.

Clarice Technologies Design Consultancy • Sr. UX Designer (Jun 2011 - Jun 2015)

- Designed mobile and web experiences for clients including Quick Heal, LoudCloud and MobiCoach, working across research, interaction design and visual design.
- Co-authored a paper on mobile security UX for emerging markets (HCI International 2014).
